BECKHAM SPEAKS TO LARGE CROWDS AT HARDINSBURG, IRVINGTON AND CLOVERPORT

Court House Crowded with People From all Parts of The County, Hear the Ex-Governor Speak for Two Hours on the Important Issues of the Senatorial Race.

YOUNG MEN SHOW SPECIAL COURTESIES

Ex-Governor Beckham was greeted at Hardinsburg last Saturday by an audience that filled the Court house to overflowing. Every inch of space was occupied with an interested hearer and observer. More than two hundred women greeted the Ex-Governor and by their presence, gave dignity to the occasion and inspiration to the speaker.

At half-past one o'clock Victor Pile, chairman of the Democratic County Committee, called the meeting to order and Judge Henry Dehaven Moorman to the stand to introduce Mr. Beckham. Judge Moorman paid a high tribute to Mr. Beckham, his life, his character and his acts while in the service of the state and people, as a member of the Legislature, and as Lieutenant Governor and

Governor. He told in his introductory remarks, some facts in the life of the Ex-Governor that opened up some interesting history in the politics of the state and the part Mr. Beckham played in it. His remarks were full of eloquence and well rounded periods that filled his hearers with convictions that the man he introduced was not a mere politician but a man who had rendered a great service to his state and the people. No man ever had a more pleasing introduction and what made it so impressive was the truth of his remarks.

Mr. Beckham took the stand and for two hours in his plain, simple way and easy manner told why he was a candidate for the high office of United States

DEMOCRATS, RIGHT THE WRONG!

Wipe Out the Stain Placed Upon the Democratic Party of Kentucky by These Four Traitors and Their Whiskey and Beer Trust Bosses

Eight years ago the Democracy of Kentucky held a Primary Election to nominate a candidate for the United States Senate. More than 100,000 Democrats participated in that primary. Governor Beckham received a majority of the votes, carrying 91 of the 119 counties in the state. The Legislature which followed was Democratic in both branches, but Governor Beckham had enforced the law as to closing the saloons in Louisville on Sunday, and had stood for the County Unit Law, thereby incurring the enmity of the Whiskey Trust and the Beer Trust, and they sought his defeat in the Legislature. The above four men, elected as Democrats, betrayed their trust and voted for the Republican candidate, W. O. Bradley, thereby electing him to the Senate.

BECKHAM SPEAKS

Continued from page 1

Senator and asking the people to support him for that office. He told of the critical period when he became Governor in the death of Governor Goebel. How he brought peace and quiet from a state of disorder and strife among the people. How he secured a million and a quarter dollars from the United States Government and paid off the big debt left on the state by a Republican Governor, how he built the state capitol, paid for it, and turned it over to the people free from debt. How he secured legislation that made ninety counties in the state "dry" and many other reform measures in the interest of the people. His remarks along these lines were not made in a boasting way. They were plain, simple truths that the people had forgotten and had only to be reminded of to make them impressive. He spoke of his opponents in a dignified way and while his remarks were keen and cutting they had the manner in them of a gentleman, a

statesman and a scholar. Mr. Beckham had the closest attention and his speech was well received.

At Irvington

From Hardinsburg Mr. Beckham took a train that was kindly held up two hours for him, arriving at Irvington about five p. m. where a large crowd greeted him. He was introduced by the Hon. A. J. Thompson, of Meade county. He made a twenty minute speech and from there took the train for Cloverport where he was greeted by a party of young Democrats headed by Mr. Brabandt. They escorted him to the residence of Mr. J. D. Babbage where he was welcomed by Mrs. Babbage and a party of friends. Mr. Beckham rested for a few minutes and then went to the American Theater where another large crowd greeted him.

Gov. Beckham was introduced by Mr. V. G. Babbage. In the audience were a number of women, several Stanley men and also a few Progressives. That which is true all over the State is true in Cloverport and that is the young men are for Beckham. They admire his quiet, steady and unboastful manner which few public men possess.

"A man's ideas, what he stands for and his efficiency for public service, is what you should know of a man before you place him in office," said Gov. Beckham, beginning his address. This can be told only by his past record. From this remark the Democrats could recall his splendid record in the highest office of the state of Kentucky; what he did to help the tobacco growers, to free the state of debt and best of all to veto the County Unit Law in 1906 which closed hundreds of saloons in Kentucky.

Gov. Beckham spoke loyally of President Wilson and told the people he was the type of a man who could be trusted with the important business of our government, not a man who is always talking, and not a man who is always off his job and away from the work intrusted to him by the people. The Ex-Governor impressed that people should postpone their victory from the time when the votes are counted until the end of the man's term or office. If he has been a faithful servant to the office to which he was elected, then celebrate, for the victory is not known until the man is tried and found worthy of the place given him. The party has the right to claim victory then.

Gov. Beckham struck a chord in the hearts of the best people when he came out in plain words for temperance. They applauded him many times when he assured the people he was against the liquor trust. His speech made all the Beckham men stronger than ever and a

number, who had taken little interest in the August primary became enthusiastic in the importance of giving the nomination to Mr. Beckham.

That night the Ex-Governor left for Owensboro where he was greeted by a large crowd from every town in Daviess and Henderson county.

BEN JOHNSON'S RECORD AS PUBLIC OFFICIAL.

One of the most emphatic ways of expressing to a faithful public official that his good services are appreciated is through the ballot box. Few things are more gratifying to a public man than a pronounced endorsement from the people he represents, of his official acts.

It is hardly necessary to invite the attention of the voters of Breckenridge county to the good record made by Congressman Ben Johnson. Every voter in Breckenridge county knows that Mr. Johnson has done his duty, that he has been more than faithful—that he, as Chairman of the House District Committee, has saved this country more than three millions of dollars. Mr. Johnson is a National figure; he is known throughout the whole country as a staunch advocate of the people's rights, as a terror to crooks. In Congress his colleagues recognize him one of the Nation's ablest representatives of the masses.

Mr. Johnson's record in Congress speaks for itself—it tells the good story of duties well done.

No man can point to a single instance in the Congressional career of Ben Johnson where he was not found on the right side. No man can point to a single vote of his that was not cast in the interest of the people.

Therefore, the citizens of Breckenridge county will honor him on Saturday, August 1, with a majority, larger perhaps, than any ever before recorded in Breckenridge county. There is no better way to commend Ben Johnson for his good work.

Let the Democrats of Breckenridge county stand to him firmly and convincingly. Let us tell the people that we, the voters of Breckenridge county, are proud of his record in Congress, and that we rejoice that our Ben Johnson has become a terror to grafters, and that he has to a very great extent, at least, been instrumental in ridding Washington of the meanest gang of corruptionists the world has ever seen.

It is not out of place to refer to the private life of Ben Johnson, since he has been faithful to a public trust unless he has in him those qualities which make a good citizen, a good neighbor, a friend of the people.

Go to Nelson county, the home of the Fourth District Congressman, and ask any man, woman or child, and you will learn from the lips of Ben Johnson's people that he has, even from his boyhood up to this good day, been known as a good, true friend of the poor. In Nelson county you can hear many pretty stories of Ben Johnson's liberality toward all of the churches and schools, and you will learn also that he could have been a very rich man had he kept his purse-strings drawn tight. So long as his money lasted Ben Johnson found more real, genuine pleasure in assisting churches, schools and the needy poor, than he did in anything else.

Make his majority in Breckenridge county on Saturday, August 1, as big as the vote polled.

MR. BECKHAM AT OWENSBORO.

Mr. Beckham had an ovation at Owensboro. More than a thousand people heard him and applauded him. The Owensboro Messenger says editorially, commenting on his speech and the result in the primary, says:

"Mr. Beckham will win the nomination hands down. That was evident three months ago. Nothing has meanwhile transpired to change the situation. Mr. Stanley has made a most vigorous canvass. He is an indefatigable worker and a wonderful talker. But he seems to have made little headway. Gov. McCreary has made none at all. Both of them have encountered a wave of public sentiment that it was impossible to brook.

"Opposition to Beckham is useless. He will get more votes, many more votes, in the primary than Stanley and McCreary combined. His race for the nomination is won. Further acrimonious speaking should be ended. It can be only destructive of party harmony. It is time to be looking forward to November."

The Henderson Route is one of the busiest roads in the State. Their freight traffic is the heaviest it has been in years. They are running double header trains both East and West, and trains in two and three sections to handle their immense freight business. They are also busy doing construction and repair work. They are raising the track four to five feet for three miles west of West Point. At Pilchers, the new station for the Government dam, they are busy putting in switches and side-tracks to take care of their big business at this point. They are having a fine local business in wheat, coal and crushed stone. Prosperity has surely come to the Henderson Route, and that means prosperity to many people and farmers all along their line of road. We notice when the railroad is busy it puts new life and energy into every other line of business, and why not give them a fair show and good treatment. It is time to quit the everlasting knocking on the railroads. They are the people's best friend in good times and in bad times.

The First State Bank moved into their new building last week. This is a handsome, cosy home-like building. There is nothing gaudy about its construction. It is plain, substantial, solid—built not for show but for service. We congratulate Mr. Piggott, the president; Mr. Payne, the cashier, and their substantial board of directors, in building so wisely their new home. May it stand as an everlasting honor to their good names and wise business management.

The Breckenridge News had a birthday yesterday. It was 38. The editor also had a birthday. He was 69 and felt just as young, or younger, than he did at 49. He got three birthday presents—one

pair of white socks, one pair of gray socks and a bottle of German cologne. These gifts made us feel like a spring chicken.

The rains last week made everything look better and everybody feel better.

Mr. Babbage is at Hardinsburg every Monday.

Our Breckenridge County Fair.

Mr. Robertson said Monday to The Breckenridge News: "I wish so much that every man, woman and child in this county would get interested in our fair." We want, he said, "to make it a success. So does every director, and we can't do it unless the people help us. We would like to have a good showing of stock from the county. To make this interesting we have decided to make all stall rent free to county exhibitors. We want them to come the first day, as it will be the Big Stock Day, and a fine list of premiums will be given on that day. There is a special premium of \$25 given by Paul Compton, Cashier of the Bank of Hardinsburg & Trust Co., which should be specially attractive to the tobacco growers. Tell the people," he said, "to get busy and come. We will have the biggest and best fair ever held in the county."

Beyer-Whitehouse Wedding.

Last Wednesday morning at eight o'clock, in the church of the Holy Name was solemnized the marriage of Miss Helen Beyer and Mr. Frederick Whitehouse. Rev. Father Lynch, assisted by four acolytes saying the impressive nuptial mass of that church. As the triumphal notes of the wedding march from Lohengrin filled the church the ushers, Messrs Marion Gabe, Chicago, and Wallace Mattingly of Cloverport, entered the middle aisle, they were followed by the bride's maid, Miss Marguerite Unverzagt, on the arm of the best man, Mr. James Lawson, of Cloverport. The bride then entered with the groom and slowly approached the altar where the bridal party were grouped at the chancel rail. Miss Willie Becker presided at the organ in her usual efficient manner, she played as a prelude King's Rosary and during the ceremony the low sweet notes of the "Venetian Love Song" flooded the church. After the ceremony, the bridal party left the church in the same order as they entered to the wedding march of Mendelssohn's. The bride was lovely in a robe of transparent organdy with a tunic of embroidered organdy. She wore a picture hat of white ostrich feathers and lace, and carried a showy bouquet of lilies and lilies of the valley. The young and charming bride's maid was gowned in a creation of embroidered net, with a picture hat of white ostrich feathers and lace, she carried carnations and ferns. The gentlemen all wore conventional suits. Immediately after the ceremony the bridal party with a few relatives and friends were entertained by Mr. and Mrs. John Gabe with an elegant wedding breakfast at their home on Clay street. The color scheme of the wedding was white and green which was artistically displayed in all the arrangements. The tables were beautifully decorated with flowers in green and white. The dining room in which the tables were arranged was both beautiful and artistic, covers being laid for twelve at each table. An elaborate and delicious breakfast was served by the Misses Forthoff and Behrich, of Mt Vernon Afterwards each guest was presented with a souvenir box of delicious cake with the letters B. and W. in green in the white icing. They were in dainty boxes of white tied with green ribbon, which made a beautiful as well as effective close to an entertainment perfectly planned. The bride, Miss Helen Beyer, numbers her friends by her acquaintances. She has held the position of stenographer most acceptably at A. Waller & Co., for several years and her resignation was a regret to the firm, she is a sister to Mrs. John Gabe with whom she has made her home since the death of her parents. The groom, Mr. Frederick Whitehouse, is a railroad man, an employee of the L. & St. L., and stands high among the officials of that road. Mr. and Mrs. Whitehouse will make their home in Cloverport. They left on the noon train for a trip through the east. The bride's going away gown was of green silk with hat to match. The wedding presents were beautiful and in their quantity showed the popularity of this happy young couple. Among the out-of-town guests present at the wedding were: Mr. and Mrs. Lathrope, Tracy Reid, Miss Mattingly, Miss Lawson and Miss Reid, of Cloverport; Mr. and Mrs. Jacob Behrich, Mr. and Mrs. Joe Forthoff, Miss Behrich, Miss Forthoff, Mrs. Joe Morehead, Mrs. Sam Davis, of Mt. WILL ORGANIZE INTO ONE LARGE RAILROAD UNION

**First Move to Amalgamate All
Employees Made.**

MELLEN FOR THE PRESIDENCY

**Former Head of New Haven Lines
May Be Head of Council to Include
All Branches of Roads in New
England States.**

Boston.—The first move in a campaign for a Federated Council of Brotherhoods, which shall include first the hundreds of thousands of railway men of New England, then the millions of operatives of the United States and Canada, and ultimately perhaps the workers of Great Britain also, occurred at the Quincy house here.

These railroad workers are split up into more than one hundred organizations. None of them will be asked to abandon its present brotherhood. All of them are to be urged to join in the federation that shall give unity of interest and a power of numbers that by themselves they do not possess. The United States federation of separate states and the federation of the German states into a powerful empire are the models upon which the railway campaign is planned.

The leaders of the movement are confident that when it shall be shown to be a united enterprise with the backing of the great majority of the railroad men of New England the former president of the New Haven railroad, Charles S. Mellen, will accept the presidency of the federated council. The men who are planning the campaign are enthusiastic in their praise of Mr. Mellen for his cordial and fair dealings with the employees of the railway systems he has managed. They have written him about their plan, and in long replies, all in his own handwriting, he has referred to the way their proposal warms his blood and pulls upon his heartstrings.

The originator of the plan is Earl H. Morton of Greenwood, grand president of the Order of Railroad Station Agents. One of its prime promoters is F. H. Sidney of the Brotherhood of Railroad Signalmen, and the field officer, once the movement is actually under way, will be Harry Phillips, formerly deputy mayor of West Ham—the East end of London—where in a population of 1,000,000 he had wide experience with the laboring class. The committee on organization and federation is made up of W. R. Pratt of Watpole, L. B. Twitchell of East Braintree, Dana B. Cutter of Lynn, M. E. B. Barrett of Brookline and William F. Fernald of Swampscott, all of whom are connected with the Order of Railroad Station Agents.

Among those who attended the meeting at the Quincy house were Lieutenant Governor Barry, who was at a meeting in February last and declared for federation, and ex-President Eliot, who is declared to have been "cordially invited because he is opposed to la-

Charles S. Mellen.

bor organizations and with a purpose of showing him that he is wrong."

It is a big program that has been outlined by the leaders of the federation movement thus:

Not sectional nor merely national, but international in scope.

Not to supersede a single present organization nor to dispossess a single present officer of a railway labor union.

Not to endorse any of the revolutionary doctrines, nor to stand for any of the methods of the I. W. W. and like bodies.

But to avoid petty sectional strikes.

To insure some security of tenure.

To secure for the operative places at the tables of the boards of directors who represent now the financing of the properties.

To demonstrate the partnership between capital and labor.

To secure the power that must come to a labor federation with millions of members and to use that power when necessary.

More in detail, Mr. Sidney indicates the split-up condition of the railway men today by reciting a long list of brotherhoods of which many are large, others not so large, and others, still, small, and all failing of the effectiveness which bigness of numbers and unity of action might have. Among these bodies are:

The Brotherhood of Railroad Signal Men, the Brotherhood of American Station Men, the Brotherhood of Station Employees (baggage handlers and the like), the Brotherhood of Railway Clerks, the Clerks' Assembly of the K. of L.—in all there are said to be a dozen organizations of clerks in the United States—three divisions of the Order of Railroad Station Agents, the New England Association of Roundhouse Foremen, the New England Association for Maintenance of Way, made up of civil engineers, surveyors and the like; five bodies of trackmen, the Drawbridge Tenders' association, the International Association of Car Workers, the roundhouse helpers, the federated trades, which in some cases have men in more than fifty occupations, and organizations of boiler makers, machinists, blacksmiths, electrical workers, freight house foremen, freight handlers—of whom there are two organizations, the one linked with

Charles W. Eliot.

the K. of L. and the other with the A. F. of L.—and the Switchmen's Union of North America.

Nor is this a complete list. But the list is long enough to show the text upon which the whole appeal and argument are based.

Each body was represented in the council by four delegates.

Mr. Mellen, in his letters to Mr. Sidney, said: "It is a great scheme. I fear you are too enthusiastic about myself in connection with it. I am glad the men think me loyal and steadfast enough to lead them. I like to be well thought of by my old associates." And he went on to intimate that possibly his association for 29 years with the capitalistic side of the railway enterprise might prejudice some against him.

Both Mr. Phillips and Mr. Sidney talk enthusiastically of what Mr. Mellen did when in the New Haven management, a thing, said the English organizer, that he had never heard of before. "He used to meet his employees in conference at a morning hour and his board of directors at an afternoon hour, and discuss the same problems with both bodies."

Just there comes in the suggestion for the employees to have a representative upon the board of directors. "Why not have them meet at one and the same time, either morning or afternoon, and talk over the matters face to face?" asks Mr. Phillips.

In explaining how he comes to be identified with this movement and his conception of the ends in view, he said:

"In England we have an amalgamation into one great railroad union of more than nine-tenths of the railway employees of the country. When the men caught on to the idea they flocked to join it at the rate of 3,000 a week. It is not an amalgamation for strike purposes. It's like a nation which wants peace."

"In this country, where there are said to be nearly fifty thousand railroad men out of work, we advise not amalgamation, but federation. Get a great federation and it will command respect and influence now frittered away. In England, when we got the big amalgamation, even the king took notice, and the appointment of the royal commission to confer with us and ascertain our needs and views, is well remembered."

"Through the co-operation of all parties in England we were able to put funds into the enterprise which made a great amount available for emergency purposes. For example, we were able to support a commissariat, and at one clip we sent three shiploads of food to some strikers. Such things may not come here for a long time, if at all, because your men have not really suffered, as yet. But the trade unions over there withdrew their moneys from the sinking funds and put them into this co-operative movement."

"There are plenty of level-headed and able men in the workers' ranks and it's good business to get them represented, not by men of another class with education and influence and out of philanthropic interest, but by members of their own number, on the boards of railway directors. I would have such a representative on the New Haven directorate, the Boston & Maine directorate, the New York Central directorate, the Pennsylvania, and soon."

SPAN OF LIFE MUCH LONGER

Science Has Added 15 Years, Says Dr. Victor Vaughn—Future to Class Us as Barbarians.

Atlantic City, N. J.—At the first general session of the convention of the American Medical association Dr. Victor C. Vaughn was installed as president, succeeding Dr. John A. Witherspoon of Nashville, Tenn.

Doctor Vaughn made "The Service of Medicine to Civilization" the subject of his inaugural address.

"In the last century the average of human life has been increased by 15 years, and this increase could be duplicated in the next 20 years," he said. "If the facts we now possess were effectively employed."

"The further developments of medicine, both curative and preventive, depend on scientific investigations. The public is the beneficiary and should in every way encourage medical research. The federal government and the states should sustain and promote scientific research."

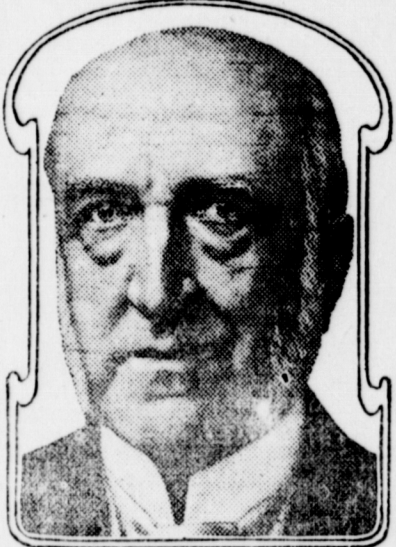

"We boast of a great civilization, but this is justified only within limits. The historian of the future will have no difficulty in convincing his readers that those who lived at the beginning of the twentieth century were but slightly removed from barbarism, as he will tell that the school, saloon and vice resorts flourished in close proximity; that the capitalist worked his employees under conditions which precluded soundness of body; that 10,000 murders were committed annually in our midst, and that a large percentage of our mortality was due to preventable diseases."

"In each state there should be a hygienic laboratory equipped with able men supplied with facilities for the study of sanitary conditions and for the prosecution of scientific research."

CHURCH IN CLOSED THEATER

Pastors in Oklahoma Town Take New Method to Close Sunday Show.

Lawton, Okla.—A large number of the churches of Lawton have joined in union service, which began in an alldome, to continue during the summer months. A double purpose was attained in the selection of this open-air playhouse for these church services, first that of a comfortable place of meeting, and, second, of closing this theater on Sunday. The Fort Sill military band gave a concert opening the exercises. Different preachers will occupy the pulpit each Sunday.

HARDIN FAMILY.

By H. N. Hardin.
Continued from last week.

recovered Capt. Wm. Hardin was wounded in this skirmish.

Soon after Capt. Hardin had erected Hardin's Station, intelligence was received that the Indians were building a town on Saline creek in the present State of Illinois. Hardin, not well pleased that the savages should establish themselves in such close vicinity to his little settlement, determined to dislodge them. He soon had collected around him a force of eighty select men, the hardest and boldest of those noted hunters, whose lives were passed in a continual round of perilous adventures. After a hasty march to Saline creek, they found the Indians. At the first fire Capt. Hardin was shot through the thigh. The Indians were very badly beaten. Capt. Hardin lay on his back for 130 days, but finally recovered and was in many skirmishes with the Indians afterwards.

Capt. Wm. Hardin married Winifred Holtsclaw. Their children were: Winifred A., who married Wm. Comstock, of Hardinsburg; Henry, who married Rachel Biddle, and was a farmer in Dry Valley; Malinda, married Wm. Crawford, of Hardinsburg. Gen. Wm. Hardin, who married Miss Biddle, served two terms in the Legislature from Breckenridge county in 1810-13, and was postmaster at Frankfort for many years; Elijah was killed in Hous-ton Springs in 1805; Armelia married Horace Merry; John died near Brownsville, Penn., in 1850; Jehu died at John Hardin's on Clover creek in 1850.

Daniel Hardin, who married Alice Jolly in 1785, and Mary Hardin, who married Daniel Huff, of Argabright's Fort, were not Capt. Wm. Hardin's children, but they were John Hardin's children, who was killed by the Indians.

Their mother went back to Pennsylvania on a visit, and while there died, and Capt. Wm. Hardin raised them. Henry Hardin's children were: Sallie, married Wm. Perrin; Hulda, married Zack Witt; Moses, married Nancy Jolly; Bill never married; Rachel married John Jolly.

Elijah Hardin's children were: Wm. H. Hardin married Bettie Fairley; P. B. Hardin married Mattie Mobley; Ida Hardin married J. W. Brown; S. E. Hardin, who lives in Kansas City, Mo., and is not married; Lizzie married Sam Robertson; A. M. Hardin married Lullie Payne, deceased, his second wife was Libbie Decker, of French Lick, Ind. He had two children by his first wife; Nina married Wallace Parks, and Jubal Hardin, and one child by his second wife, Mary Ellice.

Moses Hardin's children were: Henry N., deceased; Winnie, who is living with her sister in Owensboro; John E., deceased; Moses W., deceased who married Georgia Hendry; Ben F., married Laura Basham; Nine married Wm. H. Gibson; Barbra A. married H. H. Johnson. Seven children died in their infancy.

Ben F. Hardin's children are: Alaxa K. Hardin, of St. Louis, Mo., who married Marie Brown, of St. Louis, who have one child; Joseph Durwood; Ben F. The other children were: Leni L., who died in her seventh year, and Annie Lee, who is with her brother in St. Louis.

THE SECRET OF SUCCESS.

**Genuine Merit Required to Win
the People's Confidence.**

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy that I know of has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact that it fulfills almost every wish in overcoming kidney, liver and bladder diseases, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Breckenridge News.

An Elixir of Life.

"An annuity is the best elixir of life I know of," said the examining physician of an insurance company. "It sometimes seems as if annuitants never die. We have lots on our books who top eighty, ninety and even ninety-five years. I have passed many a sickly and decrepit old fellow as a good annuity risk—the sicker they are, you know, the better risk they make—and the next year he has turned up to collect his annuity rejuvenated, rosy, spry as a boy. The secret? The secret is that financial worry, fear of the poorhouse, ages and kills off more people than all the deadly diseases combined. Release an old man by means of an annuity from all this worry, and he throws off his years and walks erect and happy and fearlessly young."

Shakespeare's Birth.

The exact date of Shakespeare's birth is not known, and the accepted date of April 23 is based on circumstantial evidence. There is record evidence that he was baptized on April 26, 1564, but no record evidence of the date of his birth. He died April 23, 1616, and the inscription upon his monument is evidence that he had already begun his fifty-third year, but does not give any birth date. From these data and other such information as they could obtain, antiquaries in the eighteenth century, 100 years after his death, fixed the date of his birth as April 23, 1564, three days before his baptism. Though not proved beyond doubt, that date is universally accepted.—Philadelphia Press.

Some Words.

"Panice" is named after the ancient god Pan because of the sudden and unreasoning fear which the sight of this heathen divinity was supposed to inspire. Other common words with a similar source in the old mythologies are "vulcanite," from Vulcan, the blacksmith; "martial," for Mars, the warrior; "jovial," from Jove; "saturnine," from Saturn, and "mercurial," from Mercury, the nimble beed.

The following has more interest for Cloverport residents than it otherwise would have because Mr. Johnson is one of ourselves, a citizen of Cloverport. If it prove of assistance to but one person in Cloverport, it will have been well worth the telling.

W. M. Johnson, proprietor restaurant, Cloverport, Ky., says: "For six years I was afflicted with kidney trouble. I had pains in the small of my back and was lame when I got up in the morning. I tired easily, felt languid and was nervous. Dizzy spells and headaches also bothered me. The passages of the kidney secretions were too frequent, obliging me to get up at night. Doan's Kidney Pills brought me great relief. You may continue publishing the endorsement I have given Doan's Kidney Pills before."

CHIC MOIRE FROCK.

No material has been so fashionable as has moire this season, and here it is developed in the typical design of the season—the panner drapery, the dropped shoulder and the narrow skirt. The beaded sash in the front gives an interesting oriental suggestion. The odd girdle is snap fastened to place.

A USE FOR PLAID TAFFETA.

Always, when a new fabric or design comes into fashion, there is much experimenting with it on the part of dressmakers and designers. This has naturally been the case in the plaids and stripes that have become popular this spring. The decision that every one has reached concerning them is that they are better used in small than in large quantities. One of the best uses of plaid taffeta is in the form of waists as a part of fine blouses of white mousseline crepe de chine and chiffon.

Earned It.

A stranger was hunting quail in the mountains of Georgia, where by reason of the wild peas they are very numerous. One day his dog flushed a flock of wild turkeys to the rage of a native youth who had been creeping toward them. The boy promptly brought his old fashioned six foot rifle to his shoulder, and the bullet cut up the dirt under the dog's feet. The next instant the boy disappeared in the brush. Later in the day the hunter came across a mountain cabin and saw the same boy in the yard with a man whom he took to be his father. He hailed the man and angrily gave an account of the morning's incident. "He wasn't forty yards away when he shot at my dog. I think he should have a good thrashing," he continued. "Misses a dawg at forty yards?" the mountaineer asked in astonishment. "Yo' needn't worry 'bout that lickin' stranger; he sho' will git one all right!"—Argonaut.

Kingswood Camp Meeting!

NINTH ANNUAL ENCAMPMENT

July 24---August 2, 1914.

OBJECT:—The chief objects of this camp meeting are the glory of God, the conversion of sinners, the sanctification of believers, and the education of the fully saved.

All of our educational conventions have an important place in preparing men and women for their best work in training the minds of the young, and in helping to build character in the formative and most critical state of young man and womanhood.

To ministers, and especially young ministers and Christian workers, I know of no place where they can get, in ten days, more information, inspiration, spiritual uplift and thorough preparation to win men to Christ, than at a full salvation camp meeting. The time and money invested will bring larger returns than in any other place I know. I trust many preachers and Christian workers will avail themselves of this splendid opportunity. The clear, strong preaching and enthusiastic, earnest singing will be a feast to all who know Christ as their personal Savior; and certainly as their personal sanctifier; and it will create a hunger in the heart of the lost for a living Christ; so let all come and get help, and help others. All the saints of God need special spiritual food; hence this special feast of good things.

The following will be our leaders: Revs. Joseph Hogue, of Wichita, Kas., and J. L. Glascock, of Cincinnati, O. These workers are well known as preachers and soul winners. I do not hesitate to say that those who want clear, strong, helpful preaching, both on the line of regeneration and sanctification, will not fail to get it with the above leaders. Knowing them as I do, I feel sure they will have clear conversions and clear sanctification, and that the saints of God will get much to strengthen them and to build them up in their most Holy faith. The indications are that many will be here. I trust that we shall have a great meeting. Think, Pray and Come.

As usual, we will have good music, led by people who know music and know the Lord.

I trust hundreds who have seen this notice will make it in their plans to be with us in this annual feast of tabernacles. Many have promised to be present. You will observe that our meeting begins the Friday before the last Sunday in July, and closes the first Sunday in August. A collection of twenty-five cents will be taken at the gates the last Sunday for the running expenses.

Surely those who desire this camp to succeed will be glad to contribute twenty-five cents for running expense, and its permanent establishment

EXPENSES.

Rooms and board can be had on or near the grounds at reasonable rates. Pastors and regular evangelists are entertained free.

There are others more lovely by far,
But my face I don't mind it,

It's the fellows in front that I jar.

THE AUGUST CENTURY

(FICTION NUMBER)

The August Century is, as usual, a Midsummer Fiction Number, with short stories to appeal to a wide variety of tastes—nine altogether, including "Under Silken Skies", a story of Southern horse-racing and love-making by Maria Thompson Daviess, and "Hoodooed", a tale of darky life and superstition, by Alice Hegan Rice, of "Mrs. Wiggs" fame.

For those who do not care for fiction, there are further "Reminiscences of Tolstoy", by his son; part three of "Bodin's Note-Book", Marie Sukloff's story of her escape from a Siberian prison, and a paper on "The Slaves of America", by Professor Edward Alsworth Ross, besides new chapters from Arnold Bonett's delightful "Log of the Velsa", and of Albert Bigelow Paine's "The Car That Went Abroad."
